Credit Hours: 3 Semester Hours

Department: World Languages and Philosophy

Course Description:

Introduction to philosophical analysis of the problem of knowledge, the problem of reality, and the problem of the good. Major philosophical attitudes of Western civilization are introduced. Special attention is paid to some of the philosophical implications of contemporary natural and social science. The basic themes of the course are that the major questions philosophy deals with are present in the lives of all persons; that we must clarify the questions, if possible, before we try to answer them; and that the basic questions are always concerned with the nature and meaning of human existence. (HUMD) PREREQUISITE(S): Second-year standing or consent of department. Assessment Levels: ENGL 101/101A, MATH 093/096, READ 120. Three hours each week.

Course Materials/Supplies Needed:

1. Palmer, Donald. *Looking at Philosophy: The Unbearable Heaviness of Philosophy Made Lighter*, 6th ed., The McGraw-Hill Companies, Inc., 2013, ISBN 9780078038266.
2. PowerPoint presentations, additional readings, and other materials for this course are located on Blackboard.

Course Objectives:

- Students will be able to demonstrate knowledge of the primary goals, questions and vocabulary of philosophy.
- Students will be able to demonstrate introductory understanding of prominent philosophers and movements, which have comprised the ideological history of the western world.
- Students will be able to construct simple arguments for philosophical positions.
- Students will be able to think critically about their own worldviews.

Student Learning Outcomes:

Upon completion of the course, the student will be able to:

- Describe humankind's perennial issues and questions in a thematic way: what is real, true and good.
- Demonstrate an understanding of basic questions in metaphysics, such as, questions of "God", personal identity, and being in the world.

- Identify historical and current interpretations of truth and knowledge.
- Analyze ethical concepts such as, what is good, what is right in a multicultural society.
- Distinguish between aesthetic and non-aesthetic experiences.
- Critically evaluate different schools of philosophical thinking.
- Identify and critically examine metaphysical or epistemological assumptions of a representative philosopher.

Course Outline and Requirements:

This course will follow a format based upon lecture, class discussion, PowerPoint presentations, and cooperative exercises. You are expected to be present and prepared for class each day we meet. This means that each day we meet you will have read the assigned texts and will be prepared to discuss them. The reading may not always be easy, thus, it may be necessary to take notes on important points and items you find difficult, puzzling or unclear.

Class discussion is vital for a philosophy course, and we will all get more out of the class if we are engaged in discussions. Participation in discussions will only help all of us. It is to your advantage to read every assignment thoroughly, attend every class, and participate in discussions as much as possible.

- **Quizzes.** I will give you several reading quizzes throughout the semester. There will be no announcements for the quizzes; you should expect a quiz every time you come to class. There will be no make-up quizzes for any reason. The grading scale for the quizzes is the following: 10-9=A, 8=B, 7=C, 6=D, 5-0=F.
- **Exams.** You will have three exams. The final exam will be a “take-home” exam. You will be asked to write a research paper. I will provide you more details on this assignment as the semester progresses. There will be two “in-class” exams, in addition to the final “take-home” exam. Exams will cover material from lectures, texts, discussion, PowerPoint presentations, and handouts. The final “take-home” exam is due on the day of the scheduled final exam. The paper topics for final exam will be given one week before the due date. (See the “Class Schedule of readings and Assignments” below.)
- **Cooperative exercises.** There will be several cooperative exercises throughout the semester. I will give you more information about these assignments as the semester progresses.

Evaluation Procedures:

1. Attendance, participation, quizzes, and cooperative exercises will count for 25% of your final grade.
2. The three examinations will each count for 25% of your final grade.

Grading Scale:

90-100=A 80-89=B 70-79=C 60-69=D 0-59=F

90-100=A. A grade of ‘A’ will be given to work that is superior, shows thought, effort, insight, and some degree of originality. Mere competence is unlikely to earn an A. In the case of writing assignments, an ‘A’ paper will have virtually no typographical, grammatical, or stylistic errors. It demonstrates original and thoughtful engagement with content. It is substantial, well developed, and effectively organized. Its sentences are clear, precise, and well-structured.

80-89=B. A grade of 'B' will be given for above-average work that shows thought, effort, and insight. In the case of writing assignments, a 'B' paper will go beyond mere competence, and will contain minimal typographical, grammatical, or stylistic errors. It contains many strengths of an 'A' paper, but it lacks the thoughtfulness and originality of the superior paper.

70-79=C. A grade of 'C' indicates average work. In the case of writing assignments, a 'C' paper fulfills the assignment and is adequately organized, but the supporting evidence and the thoughtful engagement with content are minimal and organization is rather mechanical. The writing is not marred by serious typographical, grammatical, or stylistic errors.

60-69=D. A grade of 'D' indicates work that is below average. In the case of writing assignment, a 'D' paper is marked by failure to focus on a thesis, poor organization, lack of development, or recurrent typographical, grammatical, or stylistic errors.

0-59=F. A grade of 'F' indicates work that is unacceptable. In the case of writing assignments, an 'F' paper typically ignores the terms of the assignment, or it may be devoid of thesis, support, or organizing principle. Typically, it contains numerous mechanical errors that seriously interfere with comprehension; it may also be marred by serious errors in documentation.

Honors Course Options:

The academic requirements and student eligibility for the Honors Program are as follows:

- 3.2 or higher GPA
- minimum of 12 academic credits at MC
- B or A in EN 101 or EN 101A

Honors course options require students to produce Honors level scholarship, which reflects either research, analyses, critical thinking, or creativity. The Honors Project must demonstrate an Honors level assignment. If you are taking this course as an Honors student, please consult with your professor regarding the Honors Project for the course.

Attendance Policy:

Students are expected to attend all classes. Students have the responsibility to attend class and to consult with the instructor when an absence occurs. If for some reason you must leave class early, you should inform the instructor prior to the start of class of your reason for leaving early.

Again, attendance is expected, and you remain responsible for assignments due, material covered, and schedule changes announced in class while absent.

Make-up and Late Work Policy:

Generally speaking, late work or make-up exams will only be accepted in extreme circumstances. If you think your circumstances warrant a deadline extension or a make-up exam, you must speak to me about it before the deadline, not after. Documentation will be required.

Audit Policy:

If you are taking the class as an audit, you are expected to do the readings and participate in discussion. You do not have to do any of the written work, however.

Communication:

The College considers the Montgomery College email account to be the official means of communication between students and faculty. It is recommended that you check this account routinely for official communication or as directed by your professor. Some items you may find there are: course announcements, invoices, important admission/registration information, waitlist status. To check your e-mail, log into your MyMC online account and locate the e-mail icon in the upper right hand corner of the page.

Classroom Behavior:

The College seeks to provide an environment where discussion and expression of all views relevant to the subject matter of the class are recognized and necessary to the educational process. However, students do not have the right to interfere with the faculty member's right to teach or the other students' rights to learn. Faculty and staff set the standards of behavior that are within the guidelines and spirit of the Student Code of Conduct or other College policies for classrooms, events, offices, and areas, by announcing or posting these standards early in the semester.

If a student behaves disruptively or inappropriately in the classroom, an event, an office, or an area after the instructor or staff member has explained the unacceptability of such conduct and the consequences that will result, the student may be asked to leave that classroom, event, office, or area for the remainder of the day. If the student does not leave willingly, the faculty member may request the assistance of Security. This does not restrict the student's right to attend other scheduled classes or appointments.

Disruptive/inappropriate behaviors include (but are not limited to) the following:

- continuing to socialize once class has begun;
- refusing to complete assigned tasks in the class or labs;
- sleeping in class;
- arguing with the professor (disagreement issues including grading of work should be discussed privately with the professor during his or her office hours);
- participating in any activity that disrupts the class, including the use of cell phones and CD players. **Cell phones, beepers/pagers, and devices with headphones are to be turned off during class time.**

If a student is asked to leave the class because of disruptive behavior, the faculty member and the student are expected to meet to resolve the issue before the next class session (See the *Student Code of Conduct*, 07/01/03, for further information).

Academic Dishonesty/Misconduct:

Academic dishonesty in college is a very serious offense. Each student is expected to do his/her own work on all tests, papers, and other assignments. Students who engage in any act that the classroom instructor judges to be academic dishonesty or misconduct are subject to sanctions. (See the *Student Code of Conduct*, 07/01/03, for further information.)

Academic Dishonesty or Misconduct can occur in many ways. Some common forms include

- cheating on assignments or examinations;
- plagiarizing from written, video, or Internet resources;
- submitting materials that are not the student's own;
- taking examinations in the place of another student, including assessment tests.

For purposes of this course, any one of the above will result in an automatic failure for the course.

FERPA. The *Family Education Rights and Privacy Act* prohibits the instructor from discussing a student's grade and performance in the course with anyone but that student. All exceptions/allowances must be submitted in writing by the student.

General Education Requirement:

***PHIL 101* fulfills a General Education Program Humanities Distribution requirement.**

Montgomery College's General Education Program is designed to ensure that students have the skills, knowledge and attitudes to carry them successfully through their work and personal lives. This course provides multiple opportunities to develop two or more of the following competencies: written and oral communication, scientific and quantitative reasoning, critical analysis and reasoning, technological competency, and information literacy. For more information, please see www.montgomerycollege.edu/gened.

General Information:

Be on time, and attend as many classes as possible. Late arrivals are an irritating distraction to both your fellow students and myself; early departures are just as rude. If you must leave early, please tell me beforehand. Bring the assigned texts with you. Be familiar with them beforehand. The instructor *may* drop students accumulating excessive absences; according to the College catalog, an excessive absence is "one more absence than the number of classes per week during a spring or fall semester." Common courtesy is expected. *All* electronic devices should be turned off. This includes notebook computers. Cell phones should be turned off or turned to vibrate. This class is only 50 minutes long: as an adult, you should not need to leave the room during this period. If you must, be discreet and do not make a habit out of it. Finally, if you are having difficulty in class, contact me as soon as possible. If you don't, there's nothing I can do to help you. If you find the texts and concepts difficult, come talk to me outside of class. If you have questions that are not discussed in class, come talk to me outside of class. If you can't make my office hours, we can make other arrangements or you can email me with questions.

I urge you to get to know one another. This is difficult material, and discussing it with your fellow students will be very beneficial to you. There is a reason that Plato presents Socratic *dialogues* rather than *monologues*.

Lastly, philosophy is hard. Students are frequently surprised by this fact, since in contemporary usage "philosophy" simply means one's general point of view. But this is not what philosophy means in an academic context. Likewise, the readings assigned in this class are not "textbook" readings. Often they are translations of works written hundreds, if not thousands of years ago. As such, they are not immediately clear in their meaning. You cannot simply "skim" the text in order to understand it. Instead, you must enter into a conversation with the text: asking the author *why* he or she makes this argument, *what* does it mean or imply, and how does it relate to other parts of the book or to other philosophers. Your goal here is not to learn *about* the philosophers we read, but to learn *from* them.

Because of this, it is *highly* recommended that you write in your books. Underline passages that seem important. Mark cross-references, and write comments, notes and questions in the margins. To truly engage these philosophers, one must enter into a conversation with them, and not read them passively. Real reading is done with a pen or pencil in hand. If you have any questions or concerns, please contact me, and I'll be happy to assist you.

Important Student Information Links:

In addition to course requirements and objectives that are in this syllabus, Montgomery College has information on its web site (see link below) to assist you in having a successful experience both inside and outside of the classroom. It is important that you read and understand this information. The link below provides information and other resources to areas that pertain to the following: student behavior (student code of conduct), student e-mail, the tobacco free policy, withdraw and refund dates, disability support services, veteran services, how to access information on delayed openings and closings, how to register for the Montgomery College alert System, and finally, how closings and delays can impact your classes. If you have any questions please bring them to your professor. As rules and regulations change they will be updated and you will be able to access them through the link. If any student would like a written copy of these policies and procedures, the professor would be happy to provide them. By registering for this class and staying in this class, you are indicating that you acknowledge and accept these policies.
