

KITCHEN AND BATH DESIGN AREA OF CONCENTRATION, INTERIOR DESIGN-PREPROFESSIONAL AAS

Total Credits: 60

Catalog Edition: 2025-2026

Program Description

(R): 306C

This program prepares students for entry-level positions in interior design and related professions with a concentration on kitchen and bath design. Some students choose to continue their studies and have successfully transferred to four-year institutions with resulting portfolio. Emphasis is placed on the creative application of design principles, addressing environmental and human health and well-being, employing the design process, and developing effective visual communication and technical skills. Montgomery College is an accredited institutional member of the National Association of Schools of Art and Design (NASAD).

Program Outcomes

Upon completion of this program, a student will be able to:

- Apply design principles, elements, and color theory in the execution of interior design projects including kitchen and bath design projects.
- Demonstrate knowledge of the factors that influence the ethical, environmentally responsible, and professional specification of textiles, materials, finishes & furnishings.
- Collect and interpret appropriate information to solve interior design problems in keeping with the industry-recognized project process.
- Apply knowledge of the history of interior design, art, architecture, and decorative arts from western and non-western cultures into design solutions for interiors projects including kitchen and bath projects.
- Exhibit proficient visual, oral, and written communication essential to convey design solutions, employ design intentions, and manage the project process effectively.
- Define the role and value of interior designers as essential collaborators within the general building and kitchen and bath industries.

- Produce interior design solutions that are healthy, safe, pleasing, and functionally efficient demonstrating the value of interior design and kitchen and bath design.
- Communicate knowledge of trade and business issues, and professional practice standards.
- Utilize essential drafting, drawing, visualization, and software skills to develop and execute design projects.
- Demonstrate knowledge of codes, standards, and regulations that apply to interior environments including kitchens and bathrooms.
