

Excellence in Service to the College and/or the Community Award

Purpose of the Excellence in Service to the College and/or the Community Award

The Excellence in Service to the College and/or the Community Award is intended to recognize individual faculty for sustained excellence in service to the institution and/or the community.

The award identifies outstanding faculty who have a proven track record of service to the discipline, college, and/or the community. Service to the Discipline needs to be above and beyond the expectations of the regular job description. Service to the college enables the college to achieve its goals with greater efficacy, to provide the best education possible for students, and to help students achieve success, which is the primary aim of Montgomery College. Faculty contributions to the community are valued because they enrich our community of which we are integral part; service to the community should either be without compensation or service that was not fully compensated for the time and effort required.
